

# Recording Preg tests

To record pregnancy tests please follow the steps below.

1. Select Data entry | Preg Tests. You will then be presented with the following screen.

The screenshot shows the 'Data Entry - Animal Actions (Legacy)' window. The 'PregTests' tab is selected. The 'Test Result' dropdown is empty, 'Wet/Dry' is empty, 'Who Tested' is empty, and 'Weeks Pregnant' is set to 0. The 'Animal Tag' list on the left contains various tags like 034M, 05, 061P, 072U, 086C, 1003, 1062A, 107, 1071, 1114, 123D, 123Z, 140, 141, 141A. A green arrow points from the list to the form fields.

2. Select the test result, the wet or dry status of the cow and who tested and the weeks pregnant if the cow is in calf.
3. Once you have selected all the information to be recorded your screen should look like below.

The screenshot shows the 'Data Entry - Animal Actions (Legacy)' window with the 'PregTests' tab active. Red arrows point to the 'Test Result' dropdown (set to 'Positive'), 'Wet/Dry' dropdown (set to 'Wet'), and 'Who Tested' dropdown (set to 'SALT'). The 'Weeks Pregnant' field is now set to 7. The 'Animal Tag' list on the left is the same as in the first screenshot.

- Once you have entered all the information you need to select the animals that you want to record the pregnancy test for. There are two different ways that you can choose animals. The first is

To select the animals with the mouse please choose them for the left hand side of the screen and

press the  to transfer the animals over to the right hand side of the screen. See picture below for example.

The second is to press the **Add** button. This will ask you to choose the animal you want to add and create a new line on the right hand side of the screen under the pregnancy test information you are about to record. If you have a function in the site options turned on called allow manual animal tag entry when you press the add button you will be given a blank line and you will then be able to type the animals tag in the field. See pictures below for examples of both options.

The screenshot shows the 'Data Entry - Animal Actions' window. On the left, there is a 'DATA ENTRY' sidebar with a list of animal tags (034M, 05, 061P, 072U, 086C, 1003, 1062A, 107, 1071, 1114, 123D, 123Z, 140, 141, 141A) and a green arrow button. A 'Select Animal' dialog box is open in the center, titled 'Select an Animal and click OK'. It contains a search field, a list of animal tags (005D, 0127, 0168, 016M, 029, 031J, 033P, 034M, 05, 061P, 072U, 086C, 1003, 1062A), and checkboxes for 'Show Inactive Animals' (checked) and 'Show Off Site Animals' (unchecked). The background window shows a table with columns for 'Tester', 'Weeks Preg', 'Wet/Dry', and 'Res'. The bottom toolbar includes buttons for 'Add', 'Delete', 'Delete All', 'Worksheet', 'Additional', 'Process', and 'Close'.

5. Once you have entered the animals that you want to record the pregnancy test for press the

button. This will process the pregnancy test information and generate a report to let you know if there were any issues with the Pregnancy test records. See example of report below.

A screenshot of a software window titled "Summary". The window has a menu bar with "Print", "Save", and "Close" options. The main content area displays a "Summary of Operation" report. The report shows a "Success" status and a table with three records. The table has columns for "Record ID" and "Message". The records are: 1. Added PregTest to animal 141, 2. Added PregTest to animal 144, and 3. Added PregTest to animal 178R. Below the table, it says "Total Records: 3". The window also shows a page number "Page 1 of 1" and a zoom level of "100%".
