## Welcome to the Simmentaler Members Page

### Online facilities:

- **Mating Predictor**

- The Mating Predictor now calculates an Inbreeding Coefficient and permits display of both sire & dam pedigrees, together with an EBV Graph of the mating's expected EBV's. Click on the [Mating Predictor] link above.

- **Online Birth Notifications**

- Submit your Birth Notifications to the Breed Society's Office for electronic processing.

- **Download Files**

- Access your EBV files and other files by clicking on the 'Download Files' link above.

- **Ownership Selection**

- Additional Selection Criteria is now available within the Animal Enquiry and EBV Enquiry screens. When you sign on using your Username and Password, you are now able to select using 'My Ownership', in conjunction with any of the other selection criteria provided.

- **Report Configuration**

- This feature permits users to configure which columns they wish to have available for display in the results screens of either animals, EBV or member listings. For example, you may like to configure your Animal Listing Results screen to include some of the basic animals data (eg. Name, Birth Date, Sire) together with a number of the EBV traits and/or Indexes. Your configuration will be stored away, and used each time you access the system using your username and password. To access the configuration screen, click on the 'Modify my report layouts' link above.

## Simmentaler Report Layout Maintenance

In die 'animal listing' kolom kan julle die volgorde bepaal wat op die kuddelys moet verskyn. As dit reg is druk 'update'

In the 'animal listing' column you can choose what you want displayed in your herdlist. If it is correct, choose 'update'

[Home](#) [Administration](#) [Information](#) [Animal Enquiry](#) [EBV Enquiry](#) [Mating Predictor](#) [Member Enquiry](#) [Sale Catalogues](#) [Semen Catalogues](#) [Event Listing](#) [Download Files](#) [Birth Notifications](#)

Enter a sequence number next to the fields you want to be displayed (Eg. 10 20 30) and click update to save. Fields will be displayed in ascending sequence number from left-to-right across the page.

If you want to remove your custom reporting configuration, simply remove all the sequence numbers and click update.
